TITLE

The commercial position today

KatKin has raised significant growth capital and reports scale claims via trade press, while first-party conversion, transition and retention data remain unavailable.

DECISION

Capital and scale claims exist, but customer economics don't.

COMMERCIAL CONSEQUENCE

Capital and scale claims exist, but customer economics don't.

SOURCES: K1

EVIDENCE

NARRATIIVE

The 12-month opportunity

Indexed sensitivity shows the effect of 10% more qualified visits, 10% higher first-purchase conversion and 10% more realised revenue per acquired customer. It is not a KatKin forecast.

COMMERCIAL CONSEQUENCE

A proof-to-decision journey could compound three customer behaviours.

SOURCES: K2, K9

ILLUSTRATIVE SCENARIO

Where the gains come from

Qualified trial conversion, transition completion, early retained feeding and retail-to-owned conversion together form the growth path; public evidence confirms their existence as mechanisms but not their current performance.

COMMERCIAL CONSEQUENCE

Better qualification, clearer proof and a supported transition create the gain.

SOURCES: K2, K9

INTERPRETATION

The audience opportunity

Committed cat parents weighing whether the price and operational change of frozen fresh food (freezer space, defrost routine) is justified by evidence. This is an assumption, not a verified segment, since no first-party cohort data exists.

DECISION

The highest-value moment is the trial-to-subscription transition, not acquisition.

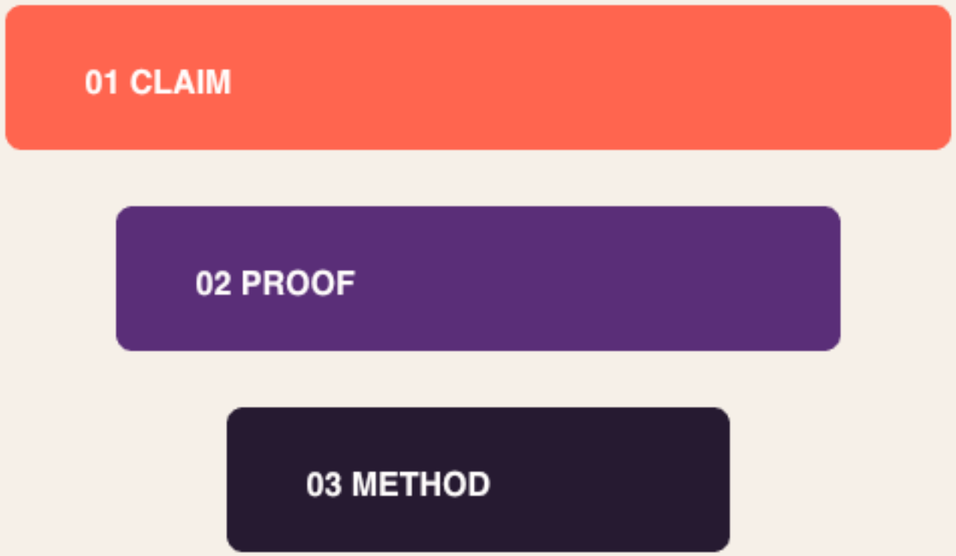

COMMERCIAL CONSEQUENCE

The highest-value moment is the trial-to-subscription transition, not acquisition.

SOURCES: K2, K8

HYPOTHESIS

The strategic direction

Combining available capital, differentiated science and an unaddressed transition moment points to building a structured proof-to-decision journey as the next commercial investment, ahead of broader-reach marketing.

COMMERCIAL CONSEQUENCE

Build the decision system before scaling acquisition further.

SOURCES: K1, K3, K9

INTERPRETATION

Competitive Landscape

01

DISCOVERY

Competitors own different trust and value cues; KatKin's combination remains a hypothesis.

02

DECISION

KatKin's scientific ambition and product-learning capability are harder to copy than convenience claims.

03

REPEAT

Competitors own different trust and value cues; KatKin's combination remains a hypothesis.

COMMERCIAL CONSEQUENCE

Competitors own different trust and value cues; KatKin's combination remains a hypothesis.

SOURCES: K3, K5, K6

VERIFIED EXTERNAL

NARRATIIVE

The Sea of Sameness

THE EVIDENCE

Turn research into a useful decision system.

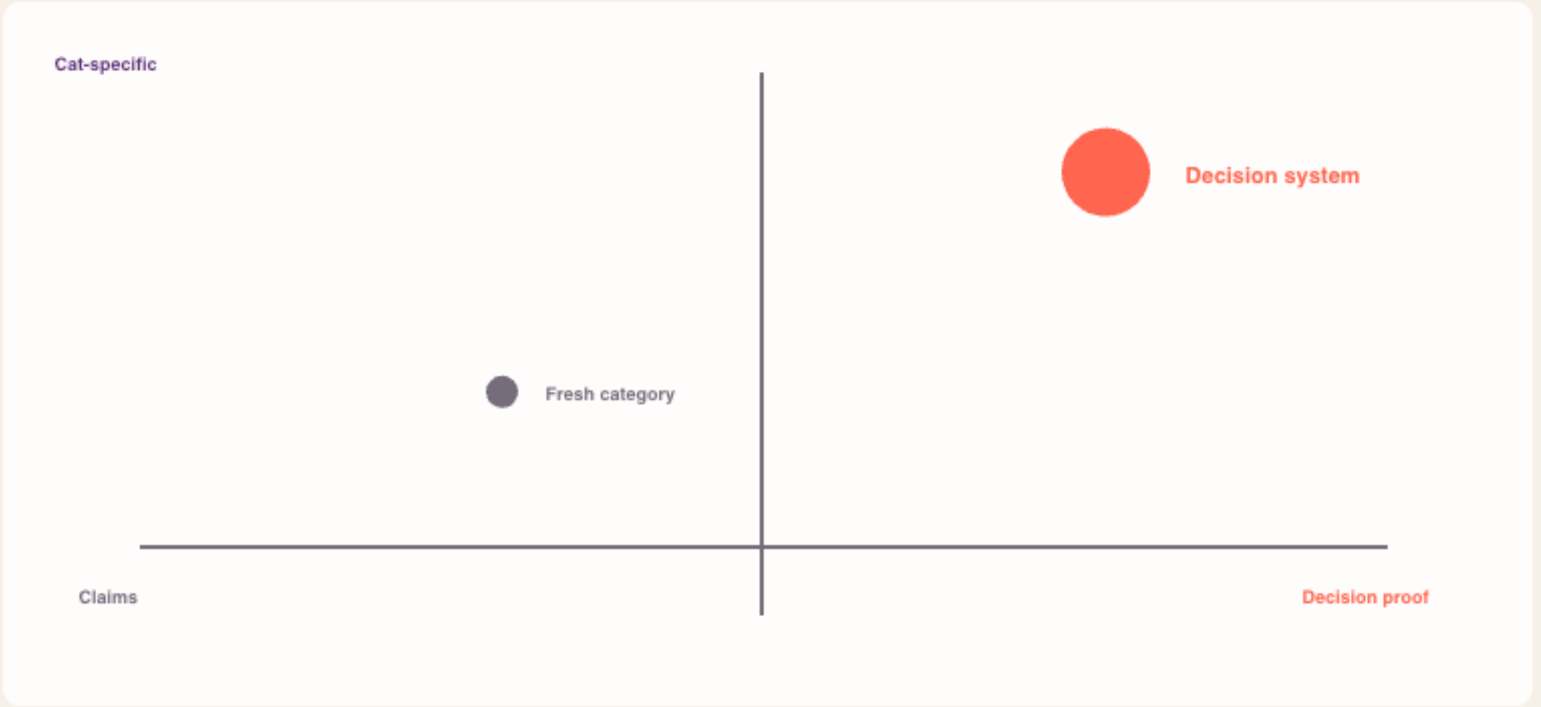

COMMERCIAL CONSEQUENCE

KatKin needs a reason to be remembered, not another generic category claim.

SOURCES: K3, K5, K6

VERIFIED EXTERNAL

The Market Gap

THE GAP

Useful science at the decision moment

WHO IT MATTERS TO

Committed cat parents weighing price and routine change

WHY COMPETITORS MISS IT

Convenience and ingredient claims are increasingly shared

COMMERCIAL CONSEQUENCE

The opportunity is a specific, reversible bet grounded in the evidence available.

SOURCES: K1, K3, K9

ASSUMPTION + VERIFIED EXTERNAL

Growth Constraint Diagnosis

KatKin's strongest difference is scientific ambition, but customers must still bridge price, freezer space, feeding transition and proof before that difference can create durable commercial value.

DECISION

Trust and conversion are constrained by unresolved proof and proposition questions.

COMMERCIAL CONSEQUENCE

Trust and conversion are constrained by unresolved proof and proposition questions.

SOURCES: K2, K3, K9

ASSUMPTION + VERIFIED EXTERNAL

The Provocation

WHAT THE MARKET SEES

Category convention

A public trust contradiction can undermine a trust-dependent growth story.

THE GAP

WHAT THE CLIENT CAN OWN

Distinctive advantage

Proof must do practical work at trial and transition.

COMMERCIAL CONSEQUENCE

A public trust contradiction can undermine a trust-dependent growth story.

SOURCES: K2, K3, K9

ASSUMPTION + VERIFIED EXTERNAL

Audience Reality

01

CORE

Outside-in evidence cannot yet support confident buyer segmentation.

02

CONVERT

Committed cat parents weighing whether the price and operational change of frozen fresh food (freezer space, defrost routine) is justified by.

03

EXPAND

Outside-in evidence cannot yet support confident buyer segmentation.

COMMERCIAL CONSEQUENCE

Outside-in evidence cannot yet support confident buyer segmentation.

SOURCES: K2, K8, K9

ASSUMPTION + VERIFIED EXTERNAL

NARRATIIVE

Audience Segments / Demand Pools

01

CORE

Potential buyer jobs are a research question, not a settled segment model.

02

CONVERT

First-party performance data remains unavailable.

03

EXPAND

Potential buyer jobs are a research question, not a settled segment model.

COMMERCIAL CONSEQUENCE

Potential buyer jobs are a research question, not a settled segment model.

SOURCES: K2, K8, K9

ASSUMPTION + VERIFIED EXTERNAL

NARRATIIVE

Customer Evidence Board

EVIDENCE TO COLLECT

HYPOTHESIS; FIRST-PARTY VALIDATION REQUIRED

Is the change worth the price and routine?

How will I know fresh feeding is working?

PRICE MECHANICS	The recurring commitment is material.
SCIENCE ASSET	Comparative evidence exists but needs independent verification.
COMPETITION	Convenience and whole-meat claims are shared.

Proof should resolve commitment, not merely create attention.

COMMERCIAL CONSEQUENCE

The available customer signal is directional, small and self-selected.

SOURCES: K2, K8, K9

ASSUMPTION + VERIFIED EXTERNAL

Audience Tensions / Decision Context

01

DISCOVERY

The useful tension is between breadth of appeal and clarity of choice.

02

DECISION

This is the moment science must function as a decision aid rather than a brand claim, or trials will lapse before retention is reached.

03

REPEAT

The useful tension is between breadth of appeal and clarity of choice.

COMMERCIAL CONSEQUENCE

The useful tension is between breadth of appeal and clarity of choice.

SOURCES: K2, K8, K9

ASSUMPTION + VERIFIED EXTERNAL

NARRATIIVE

Category Entry Points

KatKin's real difference is scientific ambition, but that ambition currently lives in marketing claims, not in the customer's path from trial to committed fresh feeding. Competitors already match convenience and ingredient claims.

DECISION

Different entry points may require different proof and proposition jobs.

COMMERCIAL CONSEQUENCE

Different entry points may require different proof and proposition jobs.

SOURCES: K3, K8, K9

ASSUMPTION + VERIFIED EXTERNAL

Current Brand Diagnosis

POSITION	Scientific ambition
BENEFIT	A harder-to-copy source of difference
PROOF GAP	Effectiveness is not yet proven
EXPRESSION	Make the choice recognisable

COMMERCIAL CONSEQUENCE

KatKin's current proposition is observable; its effectiveness is not proven.

SOURCES: K3, K5, K6

VERIFIED EXTERNAL

Positioning Problem

KatKin's real difference is scientific ambition, but that ambition currently lives in marketing claims, not in the customer's path from trial to committed fresh feeding. Competitors already match convenience and ingredient claims.

COMMERCIAL CONSEQUENCE

The positioning hypothesis depends on resolving a credibility contradiction first.

SOURCES: K3, K8, K9

ASSUMPTION + VERIFIED EXTERNAL

Strategic Positioning

POSITION	Help cat parents decide with evidence
AUDIENCE	Committed cat parents weighing price and routine
PROMISE	Make fresh feeding easier to start and sustain
STATUS	Testable hypothesis - not a proven market fact

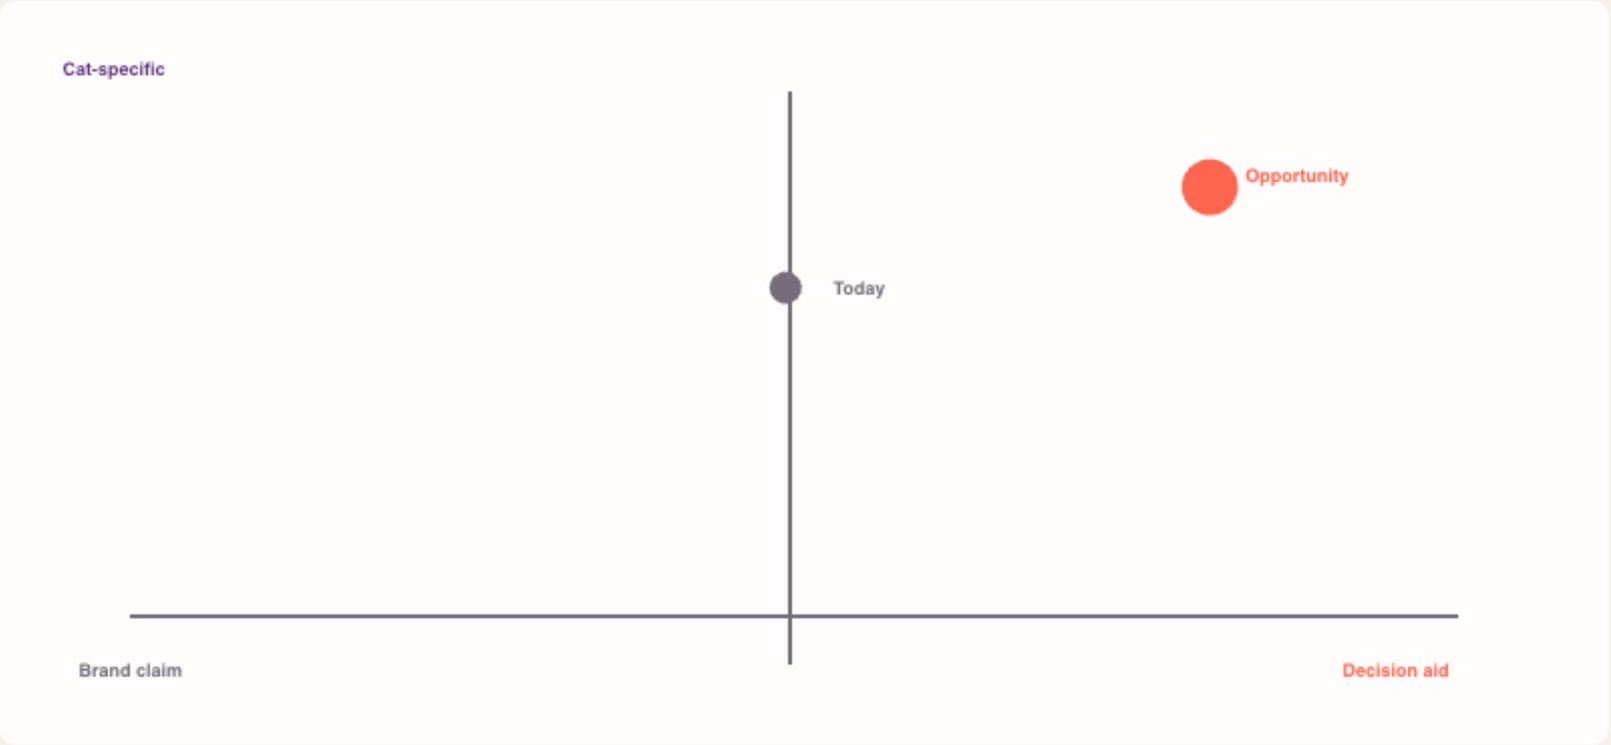

COMMERCIAL CONSEQUENCE

The approved positioning is a testable strategic hypothesis, not a proven market fact.

SOURCES: K3, K8, K9

ASSUMPTION + VERIFIED EXTERNAL

Positioning Map

OWNABLE TERRITORY

The trusted way to decide, start and stay with fresh feeding

Positions are hypotheses.

COMMERCIAL CONSEQUENCE

KatKin should test ownable territory against real customer perception, not marketing copy alone.

SOURCES: K3, K8, K9

ASSUMPTION + VERIFIED EXTERNAL

Narrative Platform

1

TENSION

The narrative moves from deciding with evidence to transitioning with.

2

SHIFT

A clear proof journey can turn scientific ambition into a reason to.

3

RESOLUTION

Make the strategic choice visible

A clear proof journey can turn scientific ambition into a reason to continue.

COMMERCIAL CONSEQUENCE

A clear proof journey can turn scientific ambition into a reason to continue.

Core Message Architecture

MASTER MESSAGE

One proof ladder can organise trial, transition and retained feeding.

Build every message around the decision, the supporting evidence and the next useful action.

CLAIM

What we say

EVIDENCE

What supports it

EXPRESSION

How it appears

COMMERCIAL CONSEQUENCE

One proof ladder can organise trial, transition and retained feeding.

SOURCES: K3, K9

ASSUMPTION + VERIFIED EXTERNAL

Messaging Territories / Distinctive Assets

01 / Decide with evidence

ROLE	Trial
TENSION	Price and proof
PROOF	Verified science
ASSET	Proof ladder

02 / Transition with confidence

ROLE	Onboarding
TENSION	Routine change
PROOF	Practical guidance
ASSET	Transition markers

03 / Recognise progress

ROLE	Retention
TENSION	Is it working?
PROOF	Observed outcomes
ASSET	Progress record

VERBAL ASSETS

Decide with evidence · Fresh feeding, made observable

TONE + MOTION

Direct and careful · Evidence before claim

RECURRING FORMATS

Decision guide · Transition check-in

COMMERCIAL CONSEQUENCE

Distinctiveness must be earned through proof, not asserted through tone.
