DECIDE WITH EVIDENCE.

Then feed with confidence - turning proof into a useful transition, not another claim.

THE CAREFUL SWITCHER

She wants confidence in the change, not another category claim.

WANTS	A clear reason to choose and continue fresh feeding.
HESITATES	Price, freezer space, routine change and uncertain proof.
MOVES WHEN	Evidence answers the decision and the transition feels manageable.

SOURCE HYPOTHESIS / VALIDATE WITH FIRST-PARTY RESEARCH

PROGRESS, MADE VISIBLE.

SETTING

Real homes. Morning routines. The cat present as an active participant.

LEGIBILITY

One decision, one proof signal and one next step in every frame.

NEVER

clinical theatre. miracle claims. generic pet joy

THE DECISION SYSTEM

Turn science into a calm, useful guide at the moment commitment can lapse.

WHAT DO WE KNOW?
WHAT DO WE DO NEXT?

THE REPEATABLE CONSTRUCTION

1. Name the decision
2. Show the evidence
3. Make the next step observable

Support trial-to-subscription conversion without claiming a result.

ONE SYSTEM. THREE DECISION MOMENTS.

Each application answers a real question, marks the next step and preserves the evidence boundary.
