Rave has built the pieces. The growth system is still hidden.

The public evidence shows range, reach and routes to repeat: an accessible speciality offer, Coffee Club, Subscribe & Save, a quiz, gifts, pods and a national wholesale service.

What it cannot show

Which route creates profitable repeat — or where growth currently leaks.

VERIFIED EXTERNAL + OPEN INPUT • Rave-owned pages revalidated 17 Oct 2026

Make growth compound — without pretending we know the answer yet.

QUALIFIED REACH × FIRST-ORDER CONVERSION × 90-DAY REPEAT × VALUE PROGRESSION

= MORE CONTRIBUTION

This is a lever model, not a forecast. Replace each term with Rave's baseline; test one lever at a time; scale only what improves contribution after fulfilment and retention.

MODELLED — NO FORECAST • Requires Rave baseline metrics before £ sizing

GATE BEFORE SCALE

Four levers. One order of operations.

Proof and reliability first.

01	**ENTER**	Show up at the moment someone decides supermarket coffee is no longer enough.
02	**CHOOSE**	Use the quiz and plain-English guidance to remove choice anxiety.
03	**STAY**	Make freshness, delivery and subscription control consistently trustworthy.
04	**PROGRESS**	Move people from an everyday anchor to discovery, gifting and rare coffee.

INTERPRETATION + HYPOTHESIS • Mechanisms derived from current offer architecture

The Upgrader is the priority hypothesis — not a finished persona.

THE MOMENT

“My everyday coffee is no longer good enough.”

THE BARRIER

Too much choice. Too much jargon. Too much risk of getting it wrong.

WHY RAVE MAY WIN

Accessible prices, an irreverent voice, human help and a product range that can grow with the customer.

HYPOTHESIS — VALIDATE • Directionally supported by public review language and Rave's own offer

OWN THE UPGRADE.

Make serious coffee easy to enter, easy to choose — and worth staying for.

POSITION	The easiest credible route into better coffee.
JOURNEY	One progression: everyday anchor → discovery → frontier.
PROOF	Freshness, delivery and value made visible — then measured.

PROPOSED DIRECTION — NOT CLIENT APPROVED • Founder review required before full FIELDWORK production
